## **CAPTAIN'S LOG #16**

**A SENSE OF  
OBLIGATION**

## A WHOLE NEW LOG!

As you can see, this issue of Captain's Log is considerably larger than previous issues, and we think it is much better.

We held the old \$10 price point as long as we could, and when inflation meant we had to go to \$11 or \$12, we decided to go to \$15 and give you *MORE* for the higher cost, rather than just giving you a higher cost.

The new 96-page format will give you more of everything, and the "special bonus" (in this issue, a 16-page SSD book of Frax ships) will always be exciting. Future issues may have a map or countersheet instead of the SSD book; all will have a few SSDs.

This issue also inaugurates the new "mini-theme" concept with three good ones: Jindarians, X-ships, and Alliance Maulers! Each mini-theme is supported by various articles throughout the issue.

*Captain's Log will never be the same!*
