The Raven Prince

By

Robert Hemminger

Here we have a cool warrior that can be dropped into your game at just about any time. Take him as is, or change it up a bit and add a twist, either way, he may well give your game that extra little boost to make it even better than it was before.

The Prince in Exile

Prince Fredico Belenair is a man with a whole boatload of trouble. Exiled from his homelands, hounded by assassins and summoned monsters he seems fated to spend his life hunted and poor. The young man is the crowned prince of a small realm in a high mountain region, but evil times have driven him away. (You can name the realm whatever you want, we will leave those details up to you so it will fit your campaign) Now he seeks the means, gold and allies, that he must have if he is to ever return to his lands, to free it of the oppression that have taken the thrown and the realm.

Prince Fredico, or as he has begun to call himself, the Raven Prince, is the sole child of the royal family, and thus the crowned prince of that realm. He alone was destined to sit the thrown upon his father's death, only his uncle, Duke Leto Belenair having a claim, which could only be fulfilled if the prince was found unfit or dead.

Duke Leto plays at being a kind man, capable and sure of himself, but more concerned with the well being of the realm and its simple folk than even seeking power and glory. No, he appears to all to be a good and gentle man. The truth of course is a far cry different, Leto is a hateful and devious man, plotting his rise to power and seeking whatever means he may need to gain the thrown. He has plotted for years to bring about the demise of his elder brother, the king, and to make all appear as if the plots were conceived and executed by the young prince.

Setting poison in the wine of his brother, Leto arranged for the empty vile to be discovered in the prince's rooms shortly after the king died of the foul drink. Accused by all save Leto, the prince was tried and convicted of his crimes, Leto his only supporter during the whole affair. Being honest and true though, Leto for all too see cast the final judgment and took the crown while his nephew was thrown into the deepest prison cell. Fate and a hidden ally arranged for Prince Fredico escape, and now he runs, trying to avoid the assassins that Leto sends after him, slaying the beasts his Uncle's wizard summons, and all the time seeking ways to gain the gold needed to raise an army to retake his thrown.

Worlds of Wonder

Worlds of Wonder is a fast, simple to play RPG system designed for use by advanced players who wish to create detailed characters without having to roll on endless charts and deal with endless rules.

After 30+ years of playing, running and designing games, be they RPG's or board games, we at Avalon have come to one conclusion. Its not the game's rules that make it enjoyable, but the people you play with. With that in mind, Worlds of Wonder takes the most important aspect of any RPG, the character creation, and tries to offer players, and their GM, the tools needed to make the time spent playing together well worth the time spent creating the characters.

Worlds of Wonder Expansions

Want more Worlds of Wonder? Try one of the many expansions for the system. More monsters, foes, magic, skill sets and gaming stuff to keep you occupied for weeks, months, hell maybe for a lifetime. Ever expanding, the WoW system is made for gaming fun, so don't wait, have an adventure and enter Worlds of Wonder.

Arcana

Arcana is generic world, designed for use with any Fantasy RPG System, and so the information presented here and in other Arcana expansions will of course be a bit vague as to stats, levels and powers. The intention is to give the GM and players a world rich in personality, history and depth, one where they can seek adventure, but use any RPG system they feel most conferrable with.

The basics of the game world are presented here in the core book, but as expansions are released, the complexity of the world will grow as more and more of its history, dangers and wonders are explored. When it is all said and done, Arcana will become a vast world of detailed and expansive depth, one where that you and your friends can full explore.

Special Abilities

- Savage Blow (Attack, 3)**
Grom can make a single savage attack, often killing a foe outright with a single blow of his deadly scimitar. You must declare this ability is being used before Attack Dice are rolled. On a single attack, Grom may add +2 Attack Dice to his total for that attack. (With no limit to the number of dice that can be rolled)
- Command (Move, 2)**
Grom may use his loud demanding bellows to command other orcs near by. When this ability is used, Grom may activate any one orc character, who is within five squares. This activated character may perform one action. (Note that the character may still take their normal actions when their turn comes up.) Gram may perform this ability but once a turn.
- Shatter Shield (Attack, 1)**
Grom often shatters shields and weapons with his mighty blows. Declare this ability before the Attack Dice are rolled. If Grom scores a hit, instead of doing any damage, he may shatter, and thus destroy, a foe's readied weapon or shield (Your choice.) If the foe does not have a readied weapon or shield, then this ability has no effect.
Magical items gain a save. Roll 1D6, and on a roll of 6+, the item resists the effect. Per five points of the item's cost, over the first five points, adds an extra +1 to the die roll is gained.

Battle Axe is a simple to play tabletop system for skirmish level battles. Using cards instead of dice, you will find the game to be less luck based and much more tactical in nature. The rules and cards provide here will be enough to get you started, and new characters and rule expansions are on the way so you can continue to increase both the size and composition of your War Bands.

The world is about to fall into turmoil, the likes of which it has never faced before. The Magus, Mordicain, is dead, found in his tower with a dagger thrust deep into his chest. The Magus is dead and he has left no heir to the title. The ten Magi now stand alone, none ready or powerful enough to challenge their brethren for the title and the power that comes with it. So now the realms of the world ready themselves for the wars to come, the chaos to flow and the blood to spill.

Welcome to Arcana, a new RPG world where players will take on the roles of a hero, king or in some cases, even one of the ten mighty Magi. These heroes and lords then will live and have adventures in the world of Tifnarra, become involved in grand adventures, intrigue and danger, or for others, the fate of their kingdom lies in their hands. Some few may even take on the role of one of the great Magi, vastly powerful mages, who through tradition and might have ruled the world since the dawn of time.
