All the characters and events portrayed in this work are fictional. Any resemblance to real people, historical figures, unspeakable horrors, or cultists dedicated to ushering the Old Ones into our dimension is purely coincidental. You have to admit it is kinda hilarious.

FORWARD

I can write volumes about how important Jennifer has been to **Colonial Gothic**. Ever since meeting here at **GenCon** in 2009, she has been there, helping create the rich background found in this game.

From the first few short stories that she wrote for the first revision of the game, to her work on creating the rich details of historical locales, she has tapped into what makes **Colonial Gothic**, well **Colonial Gothic**.

A lot of the work she has done, has either gone out of print, or the eBooks they are found in, no longer available. The reason for this was nothing sinister, it came down to how **Colonial Gothic** has grown.

Now, thanks to this book, you hold all the fiction Jennifer has written. There are many cool twists and turns waiting for you to discover. I have read these stories many times, and every time I finish reading them I am amazed that someone so talented wants to work with me.

So sit back, and prepare yourself to discover what I love about **Colonial Gothic**.

Richard Iorio II
March, 2016

Many tales are told of Colonial America. Some are whispered in low voices, for fear of bringing doom to the teller. Some are published in rare books, cherished by those lucky enough to possess a copy. Some are forgotten, thought to be lost to the ravages of time: but they have been found.

Here you will find lost tales of the world of **COLONIAL GOTHIC**, written by award-winning author Jennifer Brozek (*Caller Unknown*, *Never Let Die* and *Keystones*). These short stories are a collection of growing doom, mysteries rediscovered, and the darkness that lurks in the shadows.

- *From the Branch is Cast the Seed* shows that the gift of a long life may become a curse.
- *She Stretched Forth her Tentacles Across the Eons* reveals the price that is paid when an ancient evil is summoned.
- *Curious Words* recounts a correspondence dealing with a missing person, and the strange events surrounding the matter.
- *Safe House* shows that the deadliest threats are those that are unseen.
- *Where Loyal Ties Lie* discovers what a person may do in order to join a secret society.

Finally, joining these tales is the first printing of *The Ross-Allen Letters*, a collaboration between Brozek and Dylan Birtolo, which was previously only available electronically.
